AirPano.com • 360° Aerial Panoramas • 3D Virtual Tours Around the World

AirPano is a not-for-profit project focused on high-resolution virtual tours from a bird's eye view. AirPano has already photographed over 300 most interesting locations on our planet and it is the largest resource for 360° aerial panoramas in the world. There are about 3000 spherical panoramas on our website at the moment.

Free online voice recorder

Is your microphone ready?

 **Start recording**

1 Record - 2 Listen - 3 Send

SpeakPipe voice recorder allows you to create an audio recording directly from a browser by using your microphone. The recording is produced locally on your computer, and you can record as many times as you need. There is the option to save your recording on the SpeakPipe server and get a link to it, so you can send it via email or use on the web.

Works on iPhone, iPad, iPod, and Android devices.

Skoolbo is a great new site to help with reading and maths. Children are immersed in an incredible learning world and are highly motivated by the inbuilt rewards. Parents and teachers are equipped with an array of tools to help achieve wonderful educational outcomes for their children. And best of all – it's free!

BEST OF ALL - IT'S FREE

"It's great to see how enthusiastically our children have taken to using Skoolbo to help them improve their literacy and numeracy skills. The results are being seen in their classroom work."

Stephen Phillips, Biggleswade Academy Principal

10 LESSONS IN DIGITAL LITERACY
By Nik Peachey

From peacheypublications.com - May 19, 5:43 AM

This e-booklet contains a collection of ten lesson plans to help you develop students' digital literacies and critical thinking skills. Based around authentic infographics the lessons start by using discussion to help students access what they already know about the topics and then move on to comprehension and a range of tasks that help students to explore the validity and authenticity of the information they find. They finish with structured research and presentation tasks that encourage students to work collaboratively and

Create Instant Interactive Text Based Activities

The screenshot shows a web-based tool for creating interactive text. The main area contains a paragraph of text with several words replaced by grey boxes. A small window is open over the text, displaying a list of CSS styles that can be applied to the selected text. The styles include: size, style, font-size, font-size, font-family, color, width, border, padding, font-size, text-align, border, display, inline-block, border, ipa, solid, #000000, background-color, #FFFFFF, #000000. There are also options for 'No border' and 'width: 50px', 'height: 50px'. A 'Share' button and a 'Feed' icon are visible at the bottom of the window.
